

Gourdin-Gourdine **Family Research Project**

Greetings Family:

This family research project is an on-going effort – *a work-in-progress* – to identify, compile, document and publish a comprehensive genealogy of ALL Gourdin-Gourdines and extended families of African descent in America.

Below is a matrix-link to 16 skeletal ancestral charts (3 to 4 generations) of Gourdin-Gourdine family branches. Each branch is represented by a family researcher who – in addition to compiling names and vital information from living family members – is continually researching family papers and public documents/records to uncover vital family data from the 19th Century and earlier. So, take a few minutes and locate your family branch, review the chart, and contact me with your updates because your participation and input in this once in a lifetime research are essential and most welcome.

John Raymond Gourdin
